

Technical Instruction Sheet

page 1 of 1

- Characteristics:** AKEMI® Quartz Intensive Cleaner is an acid-free, ready-to-use cleaner spray made of non-ionic surfactants, auxiliary materials, odoriferous substances and solvents. The product is free from phosphates and bases; the surfactants contained are biodegradable in correspondence with the legal regulations for surfactants.
- Field of Application:** AKEMI® Quartz Intensive Cleaner is suited for a rapid and thorough cleaning of kitchen working tables, counter tops and other small surfaces made of quartz-made stone (Engineered Stone such as Caesarstone, Cambria, Silestone, Zodiaq, etc.).
- Instructions for Use:**
1. Spray AKEMI® Quartz Intensive Cleaner evenly on the surface to be treated.
 2. Spread the product with a damp cloth and allow it to work for a short while.
 3. Afterwards use a damp cloth to remove the dirt. Finish by rubbing the surface with a clean and lint-free cloth until the surface is free of streaks.
 4. For stubborn dirt, repeat the procedure again. If necessary scrub the surface with a brush.
- Special Hints:**
- Do not apply AKEMI® Quartz Intensive Cleaner on synthetic materials which are not resistant to solvents or rubber. If in doubt, test on an inconspicuous area.
 - A surplus of the product causes blooming and spotting. This can be removed with water.
 - In order to ensure proper waste disposal, the container must be completely emptied.
- Safety Measures:** see EC Safety Data Sheet
- Technical Data:**
- | | |
|-------------|---|
| Colour: | colourless |
| Density: | approx. 1.0 g/cm ³ |
| pH-value: | approx. 10 |
| Shelf life: | approx. 3 years if stored in cool place free from frost in its tightly closed original container. |
- Notice:** The above information is based on the latest stage of technical progress. It is to be considered as a non-binding hint and does not release the user from a performance test, since application, processing and environmental influences are beyond our realm of control.
