

Technical Instruction Sheet

page 1 of 1

Characteristics: AKEMI® Quartz Polish is a care product made of reactive silicone oils with lubricants and polishing agents. The product reacts with air humidity and thus develops a resistant surface protection. It is resistant to weathering and yellowing. The product has been especially developed for quartz-made stone (Engineered Stone) and is distinguished by the following qualities:

- removes dirt sticking on the surface
- enhances the resistance of quartz surfaces
- refreshes the surface lustre and features
- resistant to UV radiation
- tack-free hardening
- foodsafe

Field of Application: AKEMI® Quartz Polish is suited for the care of kitchen working tables, counter tops or other surfaces of quartz-made stone (such as Caesarstone, Cambria, Silestone, Zodiaq, etc.) as well as ceramic stove tops.

Instructions for Use:

1. Clean surfaces thoroughly with AKEMI® Quartz Intensive Cleaner and allow them to dry.
2. Shake before use.
3. Apply a thin layer with a soft cloth.
4. Allow to dry, then polish with a soft cloth or polishing wool.
5. For regular cleaning and care AKEMI® Quartz Clean & Care is very well suited.
6. Sufficient ventilation (approx. 2-3 days) is necessary when using the product in food areas.

Special Hints:

- AKEMI® Quartz Polish is only suited for polished or smooth surfaces.
- A slight colour enhancement may be possible.
- In order to ensure proper waste disposal, the container must be completely emptied.

Safety Measures: see EC Safety Data Sheet

Technical Data:

Colour:	milky white
Density:	approx. 1.79 g/cm ³

Shelf life: approx. 1 year if stored in cool place free from frost in its tightly closed original container.

Notice: The above information is based on the latest stage of technical progress. It is to be considered as a non-binding hint and does not release the user from a performance test, since application, processing and environmental influences are beyond our realm of control.
